OMEGA10

OMEGA10 IS WIDELY USED FOR ITS RECTANGULAR DESIGN. THIS PATTERN OFFERS THE ARCHITECT EXTENSIVE DESIGN VERSATILITY. MADE WITH A COMBINATION OF FLAT VERTICAL BARS AND ROUND HORIZONTAL BARS

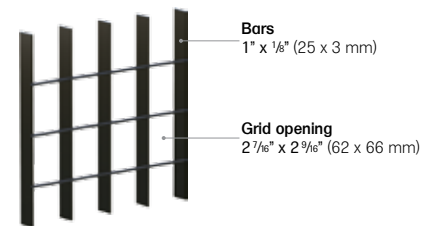

- Versatile and attractive rectangular pattern
- Rigid and secure electro-forge welded material
- Cost effective security
- Maintenance-free

OMEGA20

THE SQUARE MESH PATTERN OF THE OMEGA20 IS THE IDEAL SOLUTION FOR INDUSTRIAL AND COMMERCIAL APPLICATIONS BY VISUALLY ENHANCING THE APPEARANCE OF STRENGTH, RIGIDITY AND SECURITY. MADE WITH FLAT VERTICAL BARS AND ROUND HORIZONTAL BARS

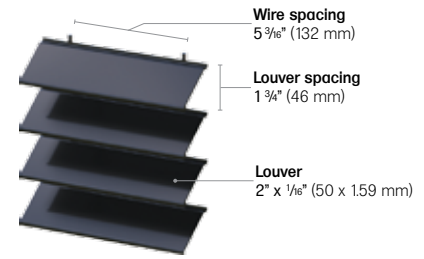

- Square mesh provides visual symmetry
- Unobtrusive security
- Superior strength-to-weight ratio
- Maintenance-free

OMEGA80

LOUVERED FENCING SYSTEM IS MADE UP OF FLAT HORIZONTAL ELEMENTS AND ROUND VERTICAL BARS. **OMEGA80** SCREENS WHAT IS BEHIND THE FENCING WITH 80% VISUAL CONCEALMENT AND 45% FREE AIRFLOW, ALLOWING AIR AND LIGHT TO PASS THROUGH.

- Effective view blocking of 80%
- Rigid louvered panels
- Elegant way to screen required areas
- Excellent free-air flow and slight natural lighting

OMEGA100

THE SOLUTION WHERE A MINIMAL AMOUNT OF VISUAL ACCESS IS A REQUIREMENT. **OMEGA100** PROVIDES 100% CONCEALMENT AND 35% FREE-AIR FLOW BY COMBINING LOUVERED BARS AND PERMANENTLY WELDED ROUND CROSS BARS HIDDEN BEHIND THE PANEL.

- 100% view blocking
- Perfectly designed to conceal equipment or enclosures
- Rigid louvered panels
- Excellent ventilation
